PROFESSIONAL SUMMARY

Ambitious Software Engineering undergraduate and Full-Stack Developer with a strong technical foundation in React.js, Node.js, PHP, and Java. Proven expertise in engineering scalable, AI-integrated web solutions that bridge the gap between complex functionality and user-centric design. Committed to maintaining high software quality standards through rigorous SDLC and QA practices. Passionate about leveraging technology to build community-driven, impactful digital platforms, with a track record of delivering robust, real-time applications

TECHNICAL SKILLS

- **Languages:** C#, PHP, Python, JavaScript (ES6+), TypeScript, Java, C
 - **Web Technologies:** .NET Core, ASP.NET Core, React.js, Node.js, Express.js, Next.js, Angular, HTML5, CSS3, Tailwind CSS, Bootstrap
 - **Databases:** MySQL, MongoDB, Firebase, Oracle, PostgreSQL, MS SQL Server
 - **Quality Assurance:** Manual Unit Testing, JUnit, Apache JMeter, Requirements Traceability Matrix (RTM), SDLC (Agile Model)
 - **Tools & Platforms:** Git, GitHub, Vercel, Postman, VS Code, IntelliJ, XAMPP, SPSS, Figma, Android Studio
-

KEY PROJECTS

CineMate – Dynamic Movie Management Platform

- **Frontend:** HTML5, CSS3, JavaScript (ES6+).
- **Backend:** PHP
- **Database:** MYSQL
- Developed a responsive web application for browsing and managing movie data.
- Integrated external APIs to fetch real-time movie information with an optimized search functionality.

EduConnect – Multi-panel Learning Management System (LMS)

- **Frontend:** HTML5, CSS3, JavaScript.
- **Backend:** PHP.
- **Database:** MySQL.
- Built a comprehensive Full-Stack LMS featuring separate dashboards for Admins, Teachers, and Students.
- Implemented core functionalities including course enrollment, assignment management, and secure login systems.

TailWatch – Community-Powered Stray Dog Care Platform

- **Frontend:** HTML5, CSS3, JavaScript.
- **Backend:** PHP
- **Database:** Firebase Realtime Database / Firestore.
- Developed a community-driven web solution for tracking stray dog vaccinations and rabies prevention.
- Leveraged Firebase for real-time data synchronization and secure cloud storage of vaccination records.

Employee Project Management System

- **Frontend:** HTML5, CSS3, JavaScript.
- **Backend:** PHP.
- **Database:** MySQL.
- Developed a centralized management portal to track employee tasks, project deadlines, and overall progress.
- Implemented a secure authentication system and role-based access control (RBAC) for admins and employees.
- Designed the database schema to handle multiple projects and task assignments efficiently.

Neth-Sawan – AI-Driven Accessibility Platform

- **Frontend:** React.js.
- **Backend:** Node.js / Google Generative AI SDK.
- **Database:** FireBase
- Built a digital assistant providing object recognition and speech-to-text services for accessibility.

ShelfLife AI – Smart Inventory Tracker

- **Frontend:** React.js, Tailwind CSS.
- **Backend:** Node.js.
- **Database:** Firebase.
- Developed an intelligent inventory management system to monitor product expiry dates and reduce resource waste.
- Integrated AI-driven predictive logic to provide automated alerts and notifications before product expiration.
- Designed a clean, minimalist dashboard for real-time tracking of stock levels and categories.

More projects are available on my GitHub: <https://github.com/deshan2004>

EDUCATION

BSc (Hons) in Software Engineering [CINEC Campus] | Malabe, Sri Lanka | [2024 – Present]

- **Relevant Modules:** Data Structures & Algorithms, Web Development, Software Quality Assurance, Database Management Systems.

G.C.E. Advanced Level [Swarna Jayanthi College| Kegalle] | [2022]

- **Results:** [Combined Maths: S, Physics: S, Chemistry C]
- **Stream:** Physical Science

G.C.E. Ordinary Level [Ruwanwella Royal College|Ruwanwella] | [2019]

- **Results:** [5 A , 2 B , 2 C]
-

RESEARCH & EXTRA-CURRICULAR

Student Social Media Addiction Analysis

- Conducted comprehensive data cleaning and statistical analysis using SPSS to evaluate social media usage patterns among undergraduates.
- Analyzed the correlation between digital habits and academic performance, providing data-driven insights.
- Documented research findings to highlight the psychological impact of excessive social media consumption.

Team Collaboration & Leadership

- Collaborated in agile team environments for various software projects, including the "EduConnect" LMS platform.
 - Actively participated in technical meetups and workshops to stay updated on emerging Full-Stack and AI technologies
-

ADDITIONAL SKILLS

- **Languages:** Sinhala (Native), English (Professional Working Proficiency).
 - **Soft Skills:** Effective Communication, Team Collaboration, Problem-Solving, Adaptability, Time Management.
-

CERTIFICATIONS

- Certified in Basics of Machine Learning Algorithms (Level 7) | Algorithms & Decision Trees | Naive Bayes | Machine Learning Enthusiast - Uni Athena
-
